

**MANUAL
MANUAL SAMPLER**

SHEET 2/3

1.1 – MANUAL INSTALLATION

INSTALLATION DESCRIPTION

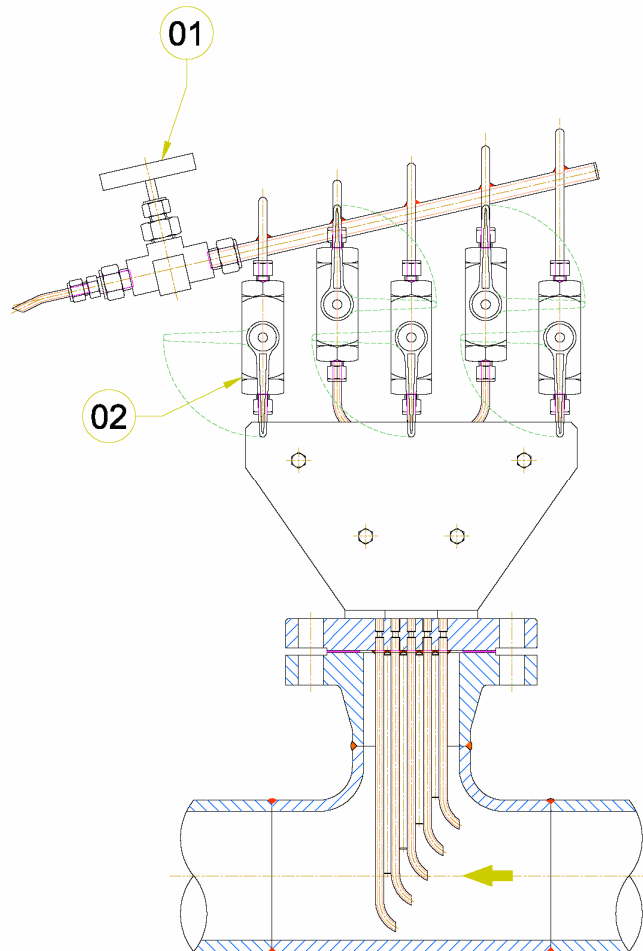

- After unpacking the Manual Sampler, verify if it is according to the dimensional drawing and/or if occurred any damage during the transportation. If any problems or damage are found, please immediately contact the freight forwarder as well as Metroval so that the issue may be addressed.
- The Manual Sampler is made up of O.D 1/4" and O.D.1/2" tubes; DN1/4" Ball Valves and DN1/2" Valve. It should be handling with care during the transportation, storage and installation.
- Easy installation equipment. The only established requisite is to verify if the collectors tubes are placed against to the flow direction. (See the drawing).
